

Trying Wm. Pero On Arson Charge

Accused of Setting Fire to Bailey Stables in March—Olive and Joseph Main, Pleading Guilty to Adultery, Get 11 Months in Jail—Colchester Boys Presented.

In the superior court, criminal side, at New London on Friday afternoon the trial of William Pero, 37, of this city, on the charge of arson, was begun. He is accused of setting fire to the stables of William F. Bailey, Jr., on Bath street, here, on March 21.

The testimony put in on Friday was principally by Civil Engineer George B. Fisher in explaining maps and photographs of the premises. William F. Bailey, Jr., owner of the stables, testified to having discovered the fire on the day, before the fire started, and Chief Murphy of the Norwich police department was also a witness.

Olive and Joseph Main Sentenced. Olive Main and Joseph Main of Ledyard, charged with adultery, changed their pleas of the court session Friday to guilty, and trial was stopped and they were sentenced. Mrs. Main was given ten months in jail and Main was sentenced to eleven months in jail.

State Attorney Hall in moving for sentence said that Main was a bad character. The state attorney said that Main, when intoxicated, will do almost anything.

Main interrupted and denied that he had ever killed a man. He was tried on the charge of manslaughter, but was acquitted. Main has been in many kinds of trouble. He is credited with being all right when sober, but reckless when drunk.

The state attorney, referring to Mrs. Main, said that she had enjoyed a good reputation, until Joseph Main came along and broke up the Main home. The sentence were then imposed by Judge Reed.

Attorney Harvey, counsel for Mrs. Main, asked that she be put on probation. Attorney Douglas, representing Main, asked for leniency for his client.

In the courtroom, when she was taken away, we saw her two children, bright, attractive boys of about ten years, neither of whom appreciated the experience they were undergoing.

Letters to the Editor. Evolutionary Taft vs. Revolutionary Roosevelt.

Mr. Editor: The vigorous political campaign between Taft and Roosevelt represents the first great national opportunity this country has had to decide between evolution and revolution in political methods of government.

Evolution is the normal and the revolution the abnormal sociological condition of society. The voice of the mob is always on the side of revolution.

When revolution becomes chronic, as we have seen it in the South American republics, the voice of the people represents the voice of some self-appointed leader. Whereas, the American revolution was the creation of public sentiment. Such latter revolutions have been justified by result.

But with Roosevelt, the case is different. He represents only "my policy," and he has the courage to say so. Religions have usually started that way. But governments, especially conditional governments, are based on evolutionary public sentiment.

President Taft stands for evolution. Roosevelt devoted his entire time and energy to forcing revolutionary methods of justice and legislative action upon the people. Should he succeed in being elected he would rightly take it as an endorsement of his revolutionary programme.

Unfortunately he would be able to proceed very far before the American people would get as sick of him as they did before. But as a disturbing factor he could do a great deal of harm before the people could check him. Connecticut is in no danger of being put in power.

His influence will be needed to help crystallize national public sentiment against his domination. The inertia of sectionalism, provincialism and partisanship must be overcome by honest action. Cannot The Bulletin start a series of meetings in eastern Connecticut? The pronounced Taft sentiment therein should make it easy to inaugurate such a movement. There is no time to wait.

ELISHA WINTER, Willimantic, May 16, 1912.

The Brown-Tail Moth. Mr. Editor: During the past season and during the last few days of the brown tail moth were apparent in our city. This fact, with the knowledge of the great destruction this moth is capable of doing, induced me to send to the state entomologist, Prof. W. E. Britton, notice of my suspicion, and on May 14 received from him the following letter:

New Haven, May 14, 1912. Mr. John E. Fanning, 21 Willow St., Norwich, Conn.

Dear Sir: In reply to your letter of May 14, I beg to state that three of our men would send you a brown tail moth, and no evidence of the brown tail moth were found. If you find any more that are suspicious, you had better dip them in gasoline or alcohol to kill any insects that may be in them, then after drying them somewhat, send them to me by mail. The moths were found as far south as Plainfield, and of course they may appear in Norwich at any time, as they are not very far distant from Rhode Island, and up to this time we have not been able to find them here.

Very truly yours, W. E. BRITTON, State Entomologist.

On May 17 I collected the moths and some small caterpillars which had hatched the winter, also one adult moth and forwarded them to Professor Britton, and in reply received the following letter:

New Haven, May 14, 1912. Mr. John E. Fanning, 21 Willow St., Norwich, Conn.

Dear Sir: Your letter of May 13 has been received, and the specimens have also arrived. The next caterpillars, and adult moth, all represent the brown tail moth, "Euproctis chrysorrhoea" Linn., as you supposed. I will have my assistant, Mr. Caffrey, visit Norwich, within a few days, if possible, in order to look over the infested territory. I will send him directly to you, and would consider it an accommodation if you could point out to him the place which you know to be attacked by the brown tail moth.

Thanking you for sending me the specimens, I remain, Very truly yours, W. E. BRITTON, State Entomologist.

To have our city and vicinity infested with this moth would mean a great loss of certain fruit and ornamental trees and shrubs, and with the above knowledge, I would ask that any information regarding the appearance in any locality of peculiar moths and caterpillars be reported to me at once so the matter may be referred to our state entomologist, Euproctis chrysorrhoea, and proper treatment applied. The brown tail moth is a tramp visitor and a bad pest, and those who are acquainted with him should not put off cooperation in this effort to expel the moth from our midst. Although not so plentiful as the elm tree borer, it is no less destructive in many places and in

HAVE YOU TRIED PAXTINE

The Great Toilet Germicide? You don't have to pay 50c or \$1.00 a pint for listerine antiseptics or peroxide. You can make 10 pints of a more cleansing, germicidal, healing and deodorizing antiseptic solution with one 25c box of Paxtine—a soluble antiseptic powder, obtainable at any drug store.

Paxtine destroys germs that cause disease, decay and odor—that is why it is the best mouth wash and gargle, and why it purifies the breath, cleanses and preserves the teeth better than ordinary dentifrices, and in sponge bathing it completely eradicates perspiration and other disagreeable body odors. Every daily woman appreciates this and its many other toilet and hygienic uses.

Paxtine is splendid for sore throat, inflamed eyes and to purify mouth and breath after smoking. You can get Paxtine Toilet Antiseptic at any drug store, price 25c and 50c, or by mail postpaid from The Paxtine Toilet Co., Boston, Mass., who will send you a free sample if you would like to try it before buying.

How to Make Paxtine. Take 15 gallons of L. & M. Patent made of pure lead, zinc and tin, add 12.19 per gallon. Add 1 gallon of pure Paxtine to a cask of only 2.50 per gallon.

What Texans Admire. is hearty, vigorous life, according to Hugh Tallman, of San Antonio. "We find," he writes, "that Dr. King's New Life Pills surely put new life and energy into a person. Wife and I believe they are the best made." Excellent for stomach, liver or kidney troubles. 25 cts. at Leo & Osgood Co.

Mrs. L. N. Snow, 30 Winter St., Bangor, Me., was troubled for many years with kidney and bladder ailments, and had a pain in her back with dizzy spells, and other painful symptoms. She saw Foley Kidney Pills advertised and took them and splendid results followed. She says: "I have now taken three bottles of Foley Kidney Pills and today I am perfectly cured of kidney and bladder trouble." The Leo & Osgood Co.

W. Carpenter succeeds him as assistant superintendent, and W. P. Barber of Killingly succeeds him as overseer of carding at the Shucklet company.

LADIES' NIGHT HELD AT COLONIAL CLUB. Players Occupied Thirteen Tables and Had a Delightful Time—The Prize Winners.

The new committee on entertainment at the Colonial club did themselves proud Friday evening at their first ladies' night for the club year. There were players at thirteen tables, and the occasion proved one of much pleasure.

At the close of play it was found that the prizes had gone as follows: First—Miss Nellie Bacon, clock; John R. Day, set of Thermos cups; Second—Miss Sadie McClellan, creamer and sugar bowl; Charles G. Pierce, pin. The scores of the first prize winners were 59 and 57, respectively, and for the second prize winners 53 and 52, respectively.

At the close refreshments were served. The committee which arranged the successful affair included S. Howard Mead, John W. Slattery and F. C. Sterry.

BURGULARS GET WEDDING GIFTS IN NEW LONDON. At Home of A. H. Shurtz—Three Daylight Robberies Friday.

Three houses were burglarized in broad daylight Friday afternoon, the burglars making a clean getaway with about \$1,000 worth of jewelry, bric-a-brac and clothing. The houses entered were those of Arthur H. Shurtz and Marvin L. Smith at No. 12 Addison street, and Henry Neff at 11 Center street. A number of wedding gifts were stolen from the Shurtz home.

The police believe that entrance was effected by means of skeleton keys. The police are working on several clues and hope to arrest the intruders soon.

Picnic parties have already begun to visit Lantern Hill.
